- **Adaptability:** Quick to learn and adapt to new technologies and environments.

WORK EXPERIENCE

Fullstack Developer at Nyxidiom

June, 2024 - Present.

- I worked with RemixJS in maintaining [MIISTICO](#) website. On [MIISTICO](#), I enhanced user performances by improving the UI in general. I also helped boost UX by optimizing the website's performance and I improved the database queries to enable faster loading sites.
- Aside [MIISTICO](#), I am also working on other projects using React Native, NextJS.

Team Lead, Uiresdev Hackathon

September, 2023 - October, 2023.

- I led a team in the Uiresdev hackathon to develop a fintech application using vanilla JavaScript.
- I built features for users to pay fees, buy airtime and data, and purchase food and transport tickets.
- Coordinated team efforts, and assigned tasks, and ensured the project was completed on time.
- Technologies used: Vanilla JavaScript, HTML, CSS.
- Soft Skills: Demonstrated leadership, teamwork, and effective communication

PROJECTS

E-commerce Platform (Jumia)

- Developed a full-stack e-commerce platform with product listings, shopping cart, user authentication, and payment integration features.

- Contributions: Designed and implemented the frontend interface using React and Next.js, ensuring a responsive and user-friendly experience. Developed backend services using Firebase, including secure user authentication and database management with Firestore.
- Impact: Enabled seamless online shopping experiences for users with efficient product searches, secure transactions through Stripe, and reliable user authentication with Google OAuth and NextAuth.
- Technologies used: TailwindCSS, React, Next.js, Firebase Firestore, Google OAuth, NextAuth, SwiperJS, Stripe Checkout Session.

Social Media Application (Facebook)

- Built a full-stack social media application with features like creating posts, commenting, deleting comments, deleting posts, liking, and unliking posts.
- Contributions: Developed the front end using React and Next.js, implemented JWT OAuth for secure user authentication and managed real-time data updates with Firebase.
- Impact: Created an engaging social media platform that supports dynamic user interactions, enhancing user engagement and providing a secure environment for user activities.
- Technologies used: React, Next.js, NextAuth, Firebase, TailwindCSS, Firebase database.

Movie Database Application(Hulu)

- I created a movie database application where users can search for movies and actors.
- Contributions: Developed the front end using React and Next.js, implemented search functionalities, and designed the user interface for querying movie details and actor profiles.
- Impact: Provided users with an intuitive and efficient way to search for and access movie information, improving user satisfaction and engagement.
- Technologies used: React, Next.js, TailwindCSS.

Static Landing Page(Hulu Landing Page)

- Developed a static landing page with a responsive design.
- Contributions: Utilized HTML, CSS, and JavaScript to create a visually appealing and functional interface, ensuring cross-browser compatibility and optimized page load times.
- Impact: Delivered a professional and accessible landing page that effectively communicates the brand's message, enhancing online presence and user experience.
- Technologies used: HTML, TailwindCSS, JavaScript, React, Next.js, Framer motion.

VOLUNTEERING EXPERIENCE

Frontend Developer, Google Developer Students Club

University of Ibadan, Ibadan, Oyo State.

January, 2024 – Present.

LANGUAGES

- English (Fluent)
